

Co-Located Lead Sample Result for Working Hours

Week of July 13, 2009

On October 15, 2008, the United States Environmental Protection Agency (USEPA) lowered the National Ambient Air Quality Lead Standard from a quarterly average of 1.5 µg/m³ to a rolling three-month average of 0.15 µg/m³, effective October 2009. The method of collecting the samples did not change. The current standard for the Site is 1.5 µg/m³.

Date	Sample ID	Sample Location	Result µg/m ³	Co-located with
7/15/09	071509-WH-PDS	Delaware Street perimeter fence line.	<0.087	Not co-located with a dust monitor.
